

TULLY LAW GROUP, PC
ELDER CARE LAW
HONOR & PROTECT

Why should I hire Tully Law Group?

We are established. Our law firm is dedicated to elder law and elder care issues. Estate Planning, Asset Protection and Medicaid benefits have been the focus of what we do for nearly 23 years.

We are experienced. Our elder law attorneys have been helping families for over 57 combined years. Our clients appreciate the seasoned advice and proven strategies we provide which can't be found with inexperienced or part-time elder law attorneys or even with non-attorney Medicaid companies.

We do more. We handle all of the traditional elder law legal and financial aspects but also have full time care advocates on staff to truly assist and guide the family through these uncharted waters. We take pride in holding the hands of our clients and their caregivers and are here to help coordinate, advocate and intervene if and when the crisis occurs.

We are devoted. The mission of our firm is to honor and protect those entrusted to us for their elder care needs and our firm logo encapsulates this with a warm heart held within a protective shield. We have helped over a thousand families and our client reviews and testimonials share a sampling of our caring and professional approach.

We are in it for the right reasons. Our founder, Brian Andrew Tully, was one of the youngest certified elder law attorneys in the country when he qualified in 2003. His mission of serving elders and their caregivers springs from his youth and formative years watching and helping his parents and aunts and uncles with all of his grandparents' aging and care issues. Brian became an attorney because of his lawyer Grandfather but truly became an elder care attorney because of his grandparents Tina and Pop Pop that he grew up with right next door.

What clients have said about us...

Brian Tully and his organization came into our lives in early 2017 bringing knowledge, understanding and empathy to my family's circumstance. They guided us through the important documentation we needed and started us on a path of care for my parents. My father passed mid-year changing our circumstances and plans. As I prepare to move my Mom to within five minutes of my home, her house is going into contract for sale. The Tully Law firm has provided assistance, valuable information and referrals that have made this journey so much smoother than I know it could have been. I have the highest respect and praise for Mr. Tully and his staff members Dana and Liz who worked so well with me through this season. It is my absolute pleasure to recommend Tully Law, PC to all who are seeking a knowledgeable, caring team of elder care professionals. I thank God for bringing them into our lives!

-Kathleen

I highly recommend Tully Law PC when it comes to elderly care. Caring for the elderly is such a complicated task when we want to love our parents the best we can, while still maintaining our own sanity juggling our marriage, children, and careers. I felt my physical and emotional life drained out of me the moment my elderly parents moved in with our young family. We need so much help, but my husband and I were left to care for them. Out of desperation, I asked Tully Law PC to help. This group is God-send and they were so caring every step of the way, from consultation, to wills/health proxies, to advising the elderly's financials and benefits. We felt total support from them and they have taken away so much stress out of this aspect of our lives, that they helped turning this daunting task into a joy to care for our elderly parents. Thank you Tully Law PC for what you do, and how you do it.

-Linda

Brian Tully and his staff were so helpful. They made me feel very comfortable & secure. Dealing with this chapter of our lives is very difficult, but Brian & his staff couldn't have been better at giving us the guidance needed to secure our family's future. We were so pleased that we referred Tully law to friends, who also experienced the same. Professional, kind and a good value for our money.

-Sabrina

(continued)

Brian Tully and his staff were not only knowledgeable but caring and concerned about our lives. I thought that writing a will would be a simple matter. However, through this firm I learned how intricate it can be and how important it is to get everything down on paper. Brian walked us through each step along the way making sure that our cares and concerns were well documented. I can't thank him enough for helping us through this very important process!

-Robert

I highly recommend the Tully Eldercare Law firm. We have been using this firm for the past 3 years. Initially they prepared a will, trust, POA, healthcare directive and proxy, and we annually retain their services as healthcare managers and coordinators. They are knowledgeable, competent, efficient and easy to deal with, and will delve into any issues or problems that may arise. Dealing with the governmental bureaucracy can be extremely frustrating and aggravating. They have made an unmanageable experience manageable, and eliminated the grief.

-Anthony

As parents of two young adult sons with special needs, we sought legal expertise to establish a special needs trust for them. We were advised to meet with Brian Tully. We found him to be patient and kind, notably to our sons. He listened to our concerns and together we developed the particulars of the trust. In subsequent meetings and conversations, Brian and his legal team explained its complexities in a way we could clearly understand. The entire process was accomplished in a timely, professional, and compassionate manner. With their guidance and expertise, we are confident that we now have the best possible plan to support our sons' well-being.

-Conrad

Brian was very easy to work with, and put our minds at ease. My wife especially was anxious dealing with this new chapter of our life. Brian and his staff couldn't have done a better job making my wife feel comfortable and safe. We recommended Tully law to friends of ours, who also were just as satisfied.

-Bob

Let us honor and protect your loved one.
